

...the lines are cut by a transversal & the corresponding angles are congruent

Two lines are parallel if...

...the lines are cut by a transversal so that alternate interior angles are congruent

Two lines are parallel if...

...the lines are cut by a transversal so that interior angles on the same side of the transversal are supplementary

Two lines are parallel if...

...the 2 lines are perpendicular to another line & they are in the same plane

Two lines are parallel if...

If 2 parallel lines are intersected by a transversal, then the corresponding angles are congruent.
