

The Tabor Rotation Institute will:

- Provide you with your own copy of *The Tabor Rotation Training Guide*, planning templates, and supporting materials
- Help you optimize the use of manipulatives, stations, technology, and guided math instruction
- Show you how to manage your class while empowering students with interactive management techniques that students love
- Explore why Tabor Rotation has elevated student performance an average of more than 25% in the first year alone
- Teach you how to address all your math standards, district curriculum, and prepare your students to excel on state tests—all with ONE SINGLE FRAMEWORK!

If you're a classroom teacher who wants to master small-groups and stations in math, here's your chance!

If you currently use Tabor Rotation, this institute will enhance your effective use of the framework and deepen your understanding of the 14 Essential Elements and a week of Tabor Rotation.

If your school has been unable to schedule Glenna for training, this is your opportunity to have your math team trained and ready to use Tabor Rotation—NOW!
